SOLANESOL : Specifications

CAS NO.

Origin	Extracted from tobacoo Leaves.
CAS NO.	13190-97-1

NATURE

NATURE	White or Yellow Powder 90 %

PHYSICAL PROPERTIES

Solubility in Water	Insoluble
Molecular Wt.	631.07
Empirical Formula	C45H74O

SPECIFICATIONS

Appearance	White or Yellow Powder 90 %
Purity	90 % min

SOLANESOL : Applications

USES: 1.It is the starting material for many high value vitamin K analogues, vitamin-E and coenzyme Q 10
2. It is also a potentiating agent in medicines.

STORAGE: The Product is stable stored at 2-8 ℃ and in a dampproof, airtight, lightresistant area for at least two years
